

Level of Law (Legal=man-made rules)	Legal (Statutory Law)	Lawful (Common/Natural Law)	Universal Law (Divine Law)
When you live by Universal Divine Law, you become untouchable by illusion. * You cease to react, and begin to radiate. * You cease to fear, and begin to create. * You no longer ask for freedom, you express it.	* Based on commerce and control, not natural justice. * Operates only with your unrevoked consent. * Powerful when you're unaware; powerless when you're present.	* Reflects the basic agreements of a sane, caring society. * Recognizes you as alive, not a construct. * Often used in freedom-based movements and private law assemblies.	* Requires no enforcement, it enforces itself. * The more you align with It, the more reality itself shifts in your favor. * It is not external, but internalized and embodied.
